

## **Gender Rules Quiz**

This is a Power point version of an exercise I have done with my AMST201 (intro) classes to begin the discussion of the social construction of gender roles. I have also done it with slides and with actual garments from the historic costume collection. They take the quiz, then score themselves (easy!), then we go back item by item and discuss what visual clues they "read" as masculine and feminine.

**Boy or Girl?**
